Five Ways to Stay Connected with Springmyer!

Springmyer Elementary School's Website

Visit us at ohlsd.us/springmyer for links to our school calendar, staff email addresses, lunch menus, PTA meeting notes, and more!

One Call Now phone calls and text messages

We use One Call Now to update families on many important events, including weather-related delays and closures. All families in our information system automatically receive updates. Your account will be linked to whichever phone number is listed as "primary" in our system. If you would like to add additional phone numbers, please visit our website at ohlsd.us/springmyer, click on the "One Call Now" icon, and click "Sign Up" to make changes to your account.

Our weekly Sparks newsletter

The Sparks is emailed home each Friday, posted to our school website, and available in hard copy format in the front office. If you do not receive this weekly email or would like to add additional addresses, please email Cyndi Anderson at anderson_c2@ohlsd.org to be added to our list.

The OHLSD App

The District's free app includes school updates, calendar events, and more. You can opt to receive updates from just Springmyer, or from multiple schools. It is available through the Google Play Store and Apple App Store by searching for "Oak Hills Local Schools"

Springmyer Elementary School's Facebook page

We regularly post photos, reminders, and more. Search for "Springmyer Elementary School" and "Like Us" to receive regular updates in your Facebook feed!

Need to inform us of an absence or early dismissal?

When it is necessary for your child to be absent from school, please call the absence line at 513-347-2970 by 9:00 am on the day of the absence. If your child must be excused early, s/he must bring a note from a parent/guardian stating the time to be excused and the name of the person picking him/her up. While we know that last minute changes are sometimes unavoidable, we appreciate your efforts to inform us ahead of time.

Please call the office at 574-1205 if you need help getting started with any of these!
